How to Use This Journal

Whether you have a large group or a small group, a student or an adult leader, prayer time can be one of the most meaningful parts of youth group meetings. But let's face it – leading a group through prayer time and keeping track of all their prayer requests can be quite a challenge! To help make this easier, this journal is designed to help you record names, requests, and the date of the request. This will allow you to keep track of everything during your group prayer time and help you keep track of all the requests so you can pray for them during the next week or until the next meeting. Whether you are a student or a leader, I hope this journal will be a tool that will help you pray more effectively and connect with others by lifting their concerns in prayer.

Note for Sample Version – First of all, remember that the final product of this journal has the next page repeated 100 times, which should last you a few years if you use it weekly. Secondly, if you believe this to be a quality resource you would recommend to other youth ministries, please consider leaving a review on Amazon and telling others about it. It would go a long way in getting this resource into the hands of those that need it and supporting the work of creating youth ministry resources like this one. Thanks
